CURRENT APPOINTMENTS

2017 – **Lecturer (Assistant Professor)**, ECONOMICS
Royal Holloway, University of London

EDUCATION

2011 – 2017 **Doctor of Philosophy**, ECONOMICS
University of Pittsburgh, Department of Economics
Expected Completion: May 2017

2014 – 2015 **Visiting Scholar**, ECONOMICS
Northwestern University, Department of Economics

2013 **Master of Arts**, ECONOMICS
University of Pittsburgh, Department of Economics

2007 – 2011 **Bachelor of Arts**, ECONOMICS AND MATHEMATICS
Lake Forest College

RESEARCH

I am a microeconomic theorist and experimental economist. My research is focused on understanding the relationship between information and preference—developing models that explore preference formation, discovery, and evolution and how these processes effect economic interactions. I am interested in both theoretical foundation for these questions as well as the descriptive answers that arise from experimental methods.

PUBLICATIONS / R&Rs

“Learning the Krepsian State: Exploration Through Consumption,” with Norio Takeoka and Roe Teper, *Games and Economic Behavior*, November 2016, Vol 100, p.69-94

“Context Dependent Beliefs,” *Journal of Mathematical Economics* August 2017, Vol 71, p.63-73

“Introspective Unawareness and Observable Choice,” revisions requested from *Games and Economic Behavior*

WORKING PAPERS

“Exploration and Correlation,” with Roe Teper

“Distributional Uncertainty and Persuasion”

“Reference Dependence and Attitudes Towards Uncertainty,” with Juan Sebastián Lleras and Richard Svo-boda

“Rationalization and Robustness in Dynamic Games with Incomplete Information,” with Peio Zuazo-Garin

“Unawareness, Communication, and Incomplete Contracts: An Experiment”, with Felipe A. Araujo

“Partial Awareness,” with Joe Halpern

“Bounded Memory,” with Collin Raymond and Roe Teper

TEACHING EXPERIENCE

2014 – 2015	Game Theory <i>Instructor, University of Pittsburgh</i> Student Evaluation of “overall teaching effectiveness”: 4.25/5
-------------	---

CONFERENCE PRESENTATIONS

2015	Risk, Uncertainty and Decision (RUD) <i>Learning the Krepsian State</i>
2015	Theoretical Aspects of Rationality and Knowledge (TARK) <i>Rationalization and Robustness in Dynamic Games with Incomplete Information</i>
2015	Stony Brook International Conference on Game Theory <i>Rationalization and Robustness in Dynamic Games with Incomplete Information</i>
2015	Stony Brook International Conference on Game Theory <i>Learning the Krepsian State</i>
2016	Risk, Uncertainty and Decision (RUD) <i>Introspective Unawareness and Observable Choice</i>
2016	Logic and the Foundations of Theory (LOFT) <i>Introspective Unawareness and Observable Choice</i>
2016	Economic Science Association: North American Meeting <i>Unawareness, Communication, and Incomplete Contracts: An Experiment</i>
2016	Time, Uncertainties & Strategies <i>Distributional Uncertainty and Persuasion</i>

WEB DESIGN & PROGRAMING

HTML, CSS, JavaScript, Django/Flask, SQL, Python, \LaTeX

AWARDS & HONORS

Andrew Mellon Predoctoral Fellow (Pitt, 2016), Social Sciences
Doctoral Dissertation Fellow (Pitt, 2015), Best Second Year Paper
(Pitt, 2013) Phi-Beta-Kappa Membership (LFC, 2011), Graduated
Cum Laude (LFC, 2011)
